As a front-end web developer, I utilize a customer-centric background to provide distinctive insights into how end-users engage with websites and software platforms. Possessing a certificate from edX Boot Camps underscores my dedication to continuous professional development. I am a resourceful problem-solver with a keen focus on prioritizing mobile-first design and development. Proficient in nurturing creativity, fostering collaboration within teams, and adeptly guiding projects from the initial ideation phase through seamless execution.

EXPERIENCE

Web Developer Freelancer

**2022 - present
London, UK**

Develop a fully responsive webpage with careful attention to detail and user-friendly functionalities.

Key Accomplishments:

- Effectively implemented responsive design principles to guarantee optimal viewing experiences on diverse devices, thereby improving accessibility and usability.
- Utilized Git to oversee version control, ensuring collaborative development, code tracking, and promoting effective teamwork.
- Effectively communicated technical concepts to non-technical stakeholders, fostering collaboration and understanding throughout the development process.

Security Officer Heathrow airport

**2021 – present
London, UK**

Responsible for greeting, patrolling, and monitoring secure areas, ensuring a welcoming environment. Conduct thorough searches and safety checks on passengers and colleagues, maintaining vigilance to promptly detect and respond to potential threats, ensuring a secure environment.

Key Accomplishments:

- Effectively implemented and improved security protocols, resulting in heightened efficiency and effectiveness in detecting and preventing threats.
- Showcased a rapid and efficient response to security incidents, minimizing potential risks and ensuring the safety of passengers and airport personnel.
- Balanced security measures with a customer-centric approach, contributing to a positive passenger experience by minimizing inconvenience without compromising safety.

Fleet manger
Green Motion Car Rental

2015 – 2021
London, UK

Oversaw all aspects of managing the vehicle fleet, from planning its growth to keeping it well-maintained. Made sure all vehicles were ready for rental, handled logistics, distributed vehicles, and implemented cost-effective measures to improve overall fleet efficiency.

Key Accomplishments:

- Effectively implemented and improved security protocols, resulting in heightened efficiency and effectiveness in detecting and preventing threats.
- Showcased a rapid and efficient response to security incidents, minimizing potential risks and ensuring the safety of passengers and airport personnel.
- Balanced security measures with a customer-centric approach, contributing to a positive passenger experience by minimizing inconvenience without compromising safety.

Rental Agent
Green Motion Car Rental

2012 – 2015
London, UK

As a Rental Agent at Green Motion Car and Van Rental - Heathrow, I provided excellent customer service in all customer contact situations, adhering to quality standards. My responsibilities included selling ancillary products to customers, working towards targets to increase productivity and sales.

Key Accomplishments:

- Conducted thorough underwriting of rentals, ensuring all ID checks were completed, and clients were fully aware of their liability.
- Inspected vehicles for damage during collection or return, reporting any defects while consistently delivering exceptional customer service.

My dedication to customer satisfaction and meticulous attention to detail contributed to the success of the rental process, making the experience seamless for clients.

EDUCATION

Certificate, Frontend Web Development – edX Skills For Life Bootcamp, UK

Bachelor, Advertising and Digital Marketing – International school of law and business, Lithuania
